1. Reporting entity

Alliance Grain Traders Inc. ("AGT") is located in Canada. The address of AGT's registered office is 199 Bay Street, Suite 5300, Toronto, Ontario, M5L 1B9. The management of day-to-day operations is carried out at P.O. Box 30029 No. 1 Highway East, South Tower Road, Regina, Saskatchewan S4N 7K9. The condensed consolidated interim financial statements of AGT are comprised of AGT and its subsidiaries. AGT through its subsidiaries in Canada, USA, China, Europe, Australia, South Africa and Turkey is engaged in the business of sourcing and processing (cleaning, splitting, sorting and bagging) a full range of specialty crops, including lentils, peas, chickpeas, beans and canary seed, primarily for export markets along with wheat, bulgur, rice and pasta. The results included in the condensed consolidated interim financial statements should not be taken as indicative of the performance to be expected for the full year due to the seasonal nature of AGT's business.

2. Basis of presentation

(a) Statement of compliance

The condensed consolidated interim financial statements and the notes thereto have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting*. The condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with AGT's annual consolidated financial statements as at and for the year ended December 31, 2011. All financial statements are expressed in Canadian dollars, AGT's functional currency, unless otherwise stated. There have been no changes to AGT's accounting policies from those disclosed in AGT's annual consolidated financial statements as at and for the year ended December 31, 2011.

The condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on November 8, 2012.

(b) Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value.

(c) Use of estimates and judgements

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Estimates and judgements are used when accounting for items such as collectability of receivables, depreciation and amortization, net realizable value of inventory, estimated useful lives and impairment of long-lived assets, goodwill valuation, intangible assets valuation, allocation of acquisition

2. Basis of presentation – continued

(d) Use of estimates and judgements - continued

purchase prices, stock-based compensation, accounting for income taxes, fair value of financial assets and liabilities and amounts and likelihood of contingencies.

Estimates and judgements that have the most significant impact on the amounts recognized in the condensed consolidated interim financial statements are as follows:

- **Impairment of Long-Lived and Intangible Assets**
  AGT assesses the carrying values of property, plant and equipment, intangibles assets, and goodwill annually, or more frequently if warranted by circumstances. Recoverability is determined through assumptions and judgements regarding future cash flows, sustaining capital requirements, discount rates, and asset lives. A material change in assumptions may impact the potential recoverability of these assets, resulting in amounts charged against current earnings.

- **Accounting for Income Taxes**
  AGT operates in a number of tax jurisdictions and is required to estimate its income taxes in each of these jurisdictions in preparing its financial statements. Significant judgement is required in determining income tax provisions and the recoverability of deferred income tax assets. In calculating income taxes consideration is given to items such as tax rates in each jurisdiction, deductibility of expenses, valuation allowances, changing tax laws and management's expectations about future results. AGT estimates deferred income taxes based on temporary differences between income and losses for financial reporting purposes and income and losses determined under the substantively enacted tax laws and rates. The tax effect of these temporary differences is recorded as a deferred tax asset or liability in the financial statements. The calculation of income taxes requires the use of judgement and estimates. If these judgements and estimates prove to be inaccurate, future earnings may be materially impacted.

3. Accounting changes

(a) New standards and interpretations not yet adopted

The International Accounting Standards Board ("IASB") and International Financial Reporting Interpretations Committee ("IFRIC") have issued the following standards and amendments that have not been applied in preparing these condensed consolidated interim financial statements as their effective dates fall in periods beginning subsequent to the current reporting period.

(Stated in Canadian dollars)

9. Segmented Information

As of July 1, 2012, improvements were made to management information systems to allow the review of AGT's operations and resource allocation by multiple business segments. Business segments are strategic business units with different products, processes and marketing strategies. AGT has three segments: (1) pulses and grains processing, (2) trading and distribution and (3) food ingredients and packaged food.

The pulses and grains processing includes the operations of AGT factories across its global platform. The activities in this segment are viewed by management as the traditional and regular business of AGT: to source pulses and grains from producers, process them through its factories and sell these products to its network of clients in over 100 countries in the world. The segment includes all pulses processed in AGT factories in Canada, the United States, Australia, and Turkey.

Trading and distribution relates to AGT's activities aimed at bringing its range of pulses and specialty crops direct to wholesale and retail markets. The segment currently captures AGT operations in the UK, the Netherlands, Spain, Russia, Ukraine and China. The segment also includes AGT operations in Southern Africa.

The food and packaged food segment includes all AGT Arbella business and its new pulses flours, protein, fiber and starch milling business being commissioned in Minot, North Dakota. In the current period, food and packaged food does not qualify as a reportable segment and is included in the processing and handling segment.

AGT's chief operating decision maker evaluates segment performance on the basis of EBITDA (earnings before interest, income taxes, depreciation and amortization, one-time costs and any effects of non-cash foreign exchange adjustment). AGT provides some non-IFRS measures in its management discussion and analysis and other public documents as supplementary information that Management believes may be useful to investors to explain AGT's financial results.

The accounting policies used within each segment are consistent with the policies outlined in the notes to the financial statements. Segmented revenues, expenses and results include transactions between segments that occurred during the ordinary course of business. These transactions are priced on an arm's length basis and are eliminated on consolidation. Certain estimates and assumptions were made by management in the determination of segment composition.

Prior to July 1, 2012, AGT reviewed its operations as a single operating segment as the management information systems to accurately track segment performance were not in place. Management has determined that the cost to develop reliable comparative information would be excessive. Comparative information previously disclosed on AGT's operations as a single operating segment is now included under Note 8.

10. Related party transactions

(a) Key management personnel

AGT has defined key management personnel as senior executive officers, as well as the Board of Directors, as they have the collective authority and responsibility for planning, directing and controlling the activities of AGT. The following table outlines the total compensation expense for key management personnel:

		Sept 30, 2012		Sept 30, 2011
Short term benefits (wage, bonus, vacation paid out, directors fees)	$	1,686,750	$	2,073,723
Post employment benefits (RRSP)		63,600		-
Other long term benefits (long term incentive plan/share based payments)		686,250		-
Share based payments		150,708		-
Total	$	2,587,308	$	2,073,723

(b) Transactions with other related parties

Certain key management personnel, or their related parties, hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities. As noted below, one of these entities transacted with AGT in the reporting period. The terms and conditions of the transactions were conducted on an arm's length basis. The transactions were conducted in the normal course of business and were accounted for at the exchange amount.

Transactions with corporations whose directors are also AGT directors

		Sept 30, 2012		Sept 30, 2011
Revenues	$	67,693	$	208,160
Purchases		3,802,084		3,005,379

		Sept 30, 2012		Dec 31, 2011
Accounts receivable	$	34,067	$	772,645
Accounts payable		1,739,926		420,875

11. Commitments and contingencies

AGT enters into contracts with producers. The contracts provide for delivery of specific quantities and include specific prices based on the grade that is delivered. The terms of the production contracts are not longer than one year.

At September 30, 2012, AGT had a letter of credit in favour of the Canadian Grain Commission in the amount of $10,000,000 (December 31, 2011 - $10,000,000). The letter of credit is callable by the beneficiary in the event of a producer grain payment default. The letter of credit expires December 31, 2013.

AGT has various legal matters pending which, in the opinion of management, will not have a material effect on AGT's consolidated financial position or results of operations. Should the ultimate resolution of actions differ from management's assessments and assumptions, a material adjustment to AGT's financial position or results of operations could result.
