

From Producer to the World™

ABOUT AGT FOODS

- **AGT Foods** is a global leader in value-added processing of pulses, grains, staple foods and ingredients for export and domestic markets.
- We buy crops from farmers around our 40+ facilities in Canada, the United States, Turkey, Australia and South Africa, then clean, process, package and export them to over 120 countries around the world. By processing crops in our facilities into finished products, we capture their extra value here.
- In addition to value-added processing facilities, AGT Foods operates **bulk grain handling** facilities for loading and unloading trucks, containers and railcars full of grains such as wheat, canola and flax.
- Some of our pulses are milled into **pulse ingredients**, including flours, starches, fibres and proteins, at our premiere ingredient facility in Minot, North Dakota. This is the fastest-growing segment of our business.

WHAT WE DO

We buy crops from farmers located near our facilities in Canada, the U.S., Turkey, Australia and South Africa.

We receive these crops in an AGT facility for cleaning, sorting and processing to create value-added products.

OUR PRODUCTS

Bulk products are loaded into containers, railcars or vessels for export to markets.

Products are packaged, bagged and packed for retail markets around the globe.

Pulses are milled into ingredients such as flours, proteins, starches and fibres for food companies.

Packaged and canned for ready-to-eat products and retail applications and uses.

Our products are sold in marketplaces around the globe, including traditional markets and grocery stores, as well as to food companies for use in their own products.
